Sir:

In response to the Office Action mailed January 18, 2007, applicants hereby provisionally elect, with traverse, Species V, Figure 6, for initial examination in this application. Claims 9, 12 and 13 read on the elected Species. No claim is generic to all of Species I-IX outlined in the Office Action.

Applicants respectfully traverse the election requirement since all Species are sufficiently related that a thorough and complete search for Species V should encompass a thorough and complete search for all Species I-IX. Thus, search and examination of all Species herein could be made without serious burden. See MPEP §803 which states that "[i]f the search and examination of an entire application can be made without serious burden, the Examiner must examine it on its merits." This policy should apply in the present application to avoid unnecessary delay and expense to applicants and duplicative examination by the Patent Office.

Applicant : Hirotsugu FUKUOKA

For at least the foregoing reasons, reconsideration and withdrawal of the election requirement and examination of all Species herein are respectfully requested.

Respectfully submitted,
